Hello everyone.

I am interested in trialling something new at the upcoming afternoon of John Drewry dances.

There are dancers who have registered for this class (*if you haven't registered yet and you want to come and dance, please register promptly, now*) and have been vetted by their club tutors but there may be other dancers across the Region that would be interested to see what happens at an advanced class where dances have been specifically selected to test the phrasing, flight, step length variation of the dancers as well as their ability to quickly absorb the geography of a new dance and quickly bring it up to a high level of performance.

I am happy to accommodate such interested dancers, on the clear understanding that they will not be dancing at the class. St John's church hall has sufficient space to allow you to be comfortably (and quietly) seated while watching what is going on.

If you feel that this would be a good way for you to improve your appreciation of what is expected of an advanced dancer, both physically and geographically, then please let me know. It might give you some hints about what you need to do to take the next step in your dancing career.

I look forward to hearing from you,

Damon
